Dear Ms. Adams,

I would like to thank you and all the members of the Student ADHA for the hard work in preparing and donating over 500 dental kits that we shipped to the Philippines in areas devastated by Typhoon Haiyan. I greatly appreciate your quick response to supply much needed resource to aid those who have lost everything in this tragic calamity.

The boxes of dental kits were brought to The AFYA Foundation in Yonkers, NY where volunteers packed them into pallets along with other medical relief supplies airlifted to the Philippines.

Thank you again for your generosity and willingness to help the relief effort. May your kindness be rewarded a hundred fold.

With gratitude,

  
Rev. Patrick Henry Longalong
