Dear Apple Recruiters,

Apple computers have brought a lot of ease and excitement into my life and I would love to show my passion for the brand working at the Apple store. I like Apple because of how they represent themselves with high quality products that I use every day of my life such as the iPhone and Mac Book Pro. This company cares a lot about their products and customer service and that is the kind of company I want to work for.

My current experience as a Usher at Barclays Center helped me learn how to work in a fast paced environment and in a team. I developed my people skills and abilities to converse with customers face to face. Being able to meet a guest, give them a high quality customer service they love, and see them leave happy is a truly satisfying and heartfelt experience. I've always wanted to work at an Apple store and I believe that these skills would be great to have to work there.

Please review my enclosed resume and application and contact information that is stated above. I believe that people who work for something that is meaningful brings out their best effort and makes them a great employee. When I walk into an apple store it brings a good vibe within me and sense of belonging to me, and because of this I know I would make a great candidate for Apple.

Sincerely,

Keith Brown
