Progress of APONY

- Pre Production: Storyboard and equipment list 
- Production: Recording of the videos 
- Post Production: Recording of voice overs and editing 

Video editing

The image displays a video editing software interface. At the top, the program name "Program: 20241016_173546" is visible. The main preview window shows a black screen. Below the preview, the current time is "00:12:05:00" and the zoom is set to "Fit". A timeline below the preview shows a blue playhead at the 00:12:05:00 mark. The bottom section of the interface shows a multi-track timeline with the following tracks:

- V3: Video track 3, currently empty.
- V2: Video track 2, currently empty.
- V1: Video track 1, containing a video clip with a blue and white striped pattern.
- A2: Audio track 2, containing an audio clip with a blue and white striped pattern.
- A3: Audio track 3, labeled "Audio 3", containing a green audio clip.
- Mix: Master mix track, labeled "Mix" with a volume level of "-1.7".

The timeline has a time scale from 00:00 to 00:15:00:19. The video clip in V1 and the audio clip in A2 are both active from approximately 00:05:00:06 to 00:10:00:13. The audio clip in A3 is active from approximately 00:05:00:06 to 00:10:00:13.

Sneak Peak

What is next

- Finish adding text and music to the video
- Make an appointment with Professor David Smith for voice over recording
- Finish the Video and upload it
