---

Dear Raffi,

Your proposal titled "Automated Refactoring of Legacy Java Frameworks to Annotation Types" has been successfully submitted for the April 15 round of Google's Research Awards Program in the Software engineering and programming languages topic area. The submission was received 4/15/2015 10:58:35 PM with Raffi Khatchadourian listed as the primary PI. All communications associated with this submission will be sent to rkatchadourian@citytech.cuny.edu.

You may edit your application by logging in [here](#) until the application deadline of April 15, 2015. We have not checked all proposals for completeness, so we may contact you again if we uncover any issues with your submission after the deadline.

We anticipate decisions for this round to be announced by August 15, 2015.

Sincerely,

The Google Faculty Research Awards Team
