

➤ **Formation of master planning groups/teams**

➤ **Introduction to Storm Stories** <http://openlab.citytech.cuny.edu/stormstories/>

➤ **Assignment 03.01**

➤ **Write your own storm story - Imagine how your family has been affected by the storm.**

➤ **Discuss among your team and answer the following three questions:**

Family Makeup:

- Will the family makeup or occupants of the house you are to design be affected by the storm?

Community Activities & Participation:

- What is the effect of the storm on your community?
- What critical activities or resources in the community does your family need to get by?
- What critical activities can you engage in or what resources can your family provide to help the community?
- How are we connected?
- What sustains a community?

Priorities and Goals:

- How has the storm affected the priorities and goals of your family either individually or as a group?
- Have their priorities changed or shifted?
- Have their short or long term goals changed or shifted?

Due for next Class - You will be given time for group discussion followed by a focused period of time to discuss your own storm story. Work directly on OpenLab to post your story & consider including images. Compile images of the storm and your family on a new 11 x 17 board. Highlight excerpts of your story and add these to the board.

Using Microsoft Word paste each of the questions above and write out thoughtful essay answers. Take your time as you will be considering these questions over and over during the completion of this project.

Post the following on OpenLab the night before the next class:

- Your Storm Story
- Your Storm Essay Q & A
- Your new Family Board – Post Storm

Print & be prepared to present your 11 x 17 family portraits & essay Q&A for class discussion.

During next class we will begin site research.
