Prof. Paul King

# PRECAST CONCRETE RIBBED PANEL WALL

---

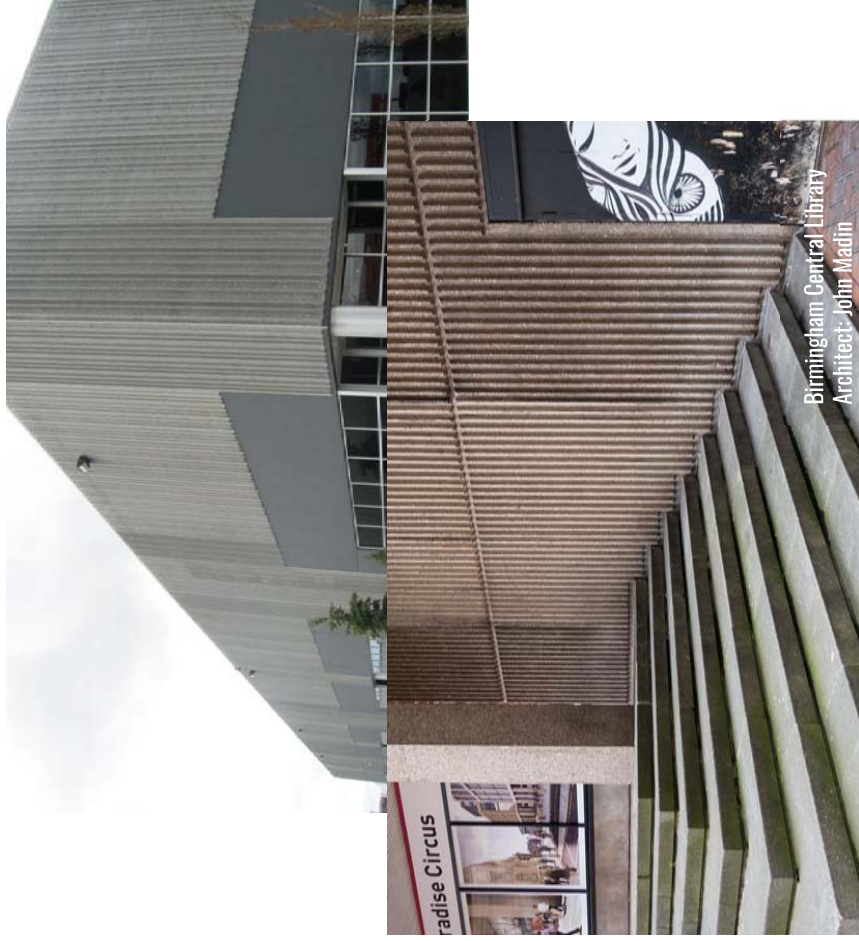

1. Prevent intrusive noise
2. Texture of the panel can be casted in different shapes and patterns
3. Sandwich concrete wall (2 layers of concrete and 1 layer of insulation in between)
4. Ideal for most buildings
5. Fast-track construction

SECTION

# STICK CURTAIN WALL SYSTEM

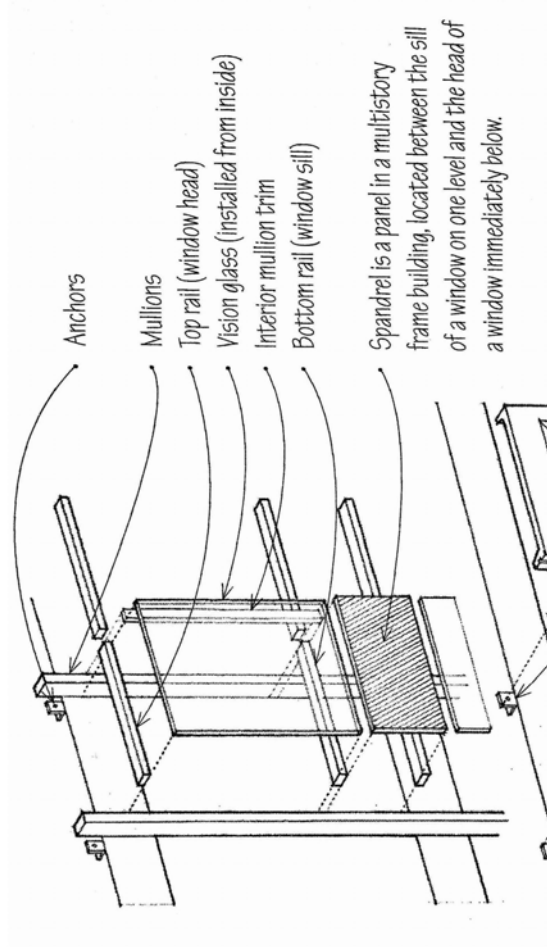

1. Less expensive comparing Unitized curtain wall
2. Fabricated materials are easy to be delivered to the site
3. To install, long pieces of vertical and horizontal aluminum are inserted between floors
4. Glazing is done on the site
