CLIMATE STRATEGY

OUR NEXT STEP ...

MY TEAM

- Include team photos, names and contact information including email addresses that can be shared with the class

- Notes on presentation:
- You may create additional slides but remember you will have only 8 minutes total to present. If you have supplementary info you want to include for reference you can add an appendix section.
- Remember to update your menu when you are done for any new slides.

MY TEAM TOPIC

- This is your teams topic or focus, Climate, History, Circulation, Openspace, Land Use/Zoning, or Sustainability.
- Consider a bullet point list of critical sub-topics for your area of focus.

MY TEAM MAP

- Identify on a map the key elements your team will talk about during the presentation. You may need more than one map to talk about your presentation.
- For example you may have one to identify where your key photos are taken, one for liabilities, one for assets, one for design strategies, etc.
- The order of the slides may change – for example you may have a map for teach sub-topic (inventory, assets, liabilities, etc)

PHOTOS & VIDEOS

- Insert a collage or relevant photos from the field trip.
- Try to stay focused on your groups topic.
- Organize these into related groups and create more than one slide as needed.
- You can also insert videos or links to online videos your team has posted.

INVENTORY

- Inventory items your team has observed
- Try to stay focused on your groups topic.
- Remember our goal is to improve the downtown waterfront and your analysis should be based upon this.
- An inventory is a list without an opinion of the value.

ASSETS

- Assets your team has observed
- Try to stay focused on your groups topic.
- Remember our goal is to improve the downtown waterfront and your analysis should be based upon this.
- For assets the goal is to take advantage and maximize their value.

LIABILITIES

- Liabilities your team has observed
- Try to stay focused on your groups topic.
- Remember our goal is to improve the downtown waterfront and your analysis should be based upon this.
- For Liabilities your goal is to minimize the negative impact of liabilities.

DESIGN STRATEGIES

- Brainstorm on possible design strategies – be imaginative.
- One idea per teammate is required
- Try to stay focused on your groups topic.
- Remember our goal is to improve the downtown waterfront and your design strategies should respond to this.

CIRCULATION STRATEGIES

- Stay focused on your groups topic and consider how it might be used to positively affect circulation around and to the Brooklyn waterfront.

CLIMATE STRATEGIES

- Stay focused on your groups topic and consider how it might be used to positively affect microclimate around and to the Brooklyn waterfront.

OUR NEXT STEPS . . .

- Stay focused on your groups topic and consider what your next step in research and team work will be.
- Consider identifying tasks and assigning these to specific teammates.
- Consider setting team deadlines for finding and sharing different information.
- Identify your teams meeting method & schedule outside of class time for the rest of the semester.
- You must meet at least once a week as a min
