Hi Kel!

Thank you SO MUCH for bringing this to my attention. I'm only coming up on my second anniversary of working as a library professional, and I hadn't noticed that in the record. I'll have to keep an eye out for that more often as I hadn't noticed it before. Thank you for the helpful information and getting back to me so quickly.

I hope you have a great rest of your week and wish you all the best. Take care!

Best,

Hi [REDACTED],

Unfortunately we actually don't own a copy – the Worldcat record links to an on order copy of the book:

Hi Kel,

My name is Alison, and I manage WorldShare ILL for White Pine Library Cooperative (Lender EZW, LVIS Member). One of the libraries that participate in ILL through our cooperative is seeking a copy of Jay Warmke's "Understanding Photovoltaics: An Easy to Follow Study Guide for Solar Electric Programs" (OCLC# 1269240774). I've resent the request in WorldShare under IL# 221344571. Is this an item that your library would be able to supply? I appreciate any help you can provide. Thank you for your time, and have a great day!

Best,
