## **Poverty in New York City**

### Poverty Background

Poverty is one of the biggest impact the world is facing today. Because of poverty many civilians are living homeless. In New York City the population of homeless and poverty rates has not gotten any better since the year 2012. On your way to work, school, or even on your way home, every day you always stroll by someone who is in need of change, a shelter, food, and warm clothes to stay warm during the winter. During cold weathers, the homeless are living out in the streets without enough clothing to keep them warm and safe. This can cause illnesses and eventually lead to a more serious condition to these individuals. These citizens have lost many family members and love ones because of being in poverty. Many of these individuals throughout NYC who are living in poverty needs your help.

### Objective

Our mission for our New York City community project is to provide help and care for the ones in poverty who are in need of shelter, food, and clothes. By doing this we can save many lives and help many homeless find their family members and love ones so they can be and feel safe. As a community we can work together and spread the message to close ones around us. This way we can create an organization where all can come together and give back to the community and help those who are in need of care. Our desire for this community project is also to provide great services once every week or every two weeks to serve breakfast, lunch, and dinner to the homeless. Also it would be great as a community for us to gather together as a whole to build or find shelters for the homeless so they can be safe during rough conditions.

### Solution

In order to provide and serve for our communities we would kindly need to ask for a small donation for our fundraising organization. To provide these types of services we need some funds to start. With these funds we can use it to buy food to serve for breakfast, lunch, and dinner, to buy clothes to keep the homeless warm during cold condition and mainly to help get resources to help build a shelter for the homeless. Also to gain success in this community project we would also need your help to spread this organization around your community in order for our organization to gain more individuals who are willing to help out and be a part of this organization to provide care and help for those who are suffering from poverty.
