Good Afternoon,

I am writing to express my interest in working for your business in order to improve my work experience and professional skills. I am a student at NYC College of Technology, pursuing a Bachelor's of Technology in Entertainment Technology, with a focus in Scenery and Lighting. I am interested in an internship with you because it serves as a great way to enter the entertainment industry, something I've been passionate about in both the creative aspect as well as the technical aspect. I believe it would be a great means of improving my skills, as well as expanding my work experience for the purpose of knowledge and credibility.

While I've learn a wide variety of skills and talents within my education for carpentry techniques, and basic lighting skills. I have both worked and lead crews for productions hosted at the college under the supervision of experienced professors in the entertainment industry. I have become familiar with common techniques used in the industry and able to come up with solutions or alternatives to problems or requests given to the production crews. I believe that working at your company will give me a deeper understanding of these skills and techniques that cannot be found with in an education.

I have attached my resume and look forward to meeting in person, especially if It is to understand more about the standards of your company and how it handels daily functions. Please feel free to Reach out to me directly at 347-898-4197, or at kenetmej@gmail.com with any questions. I am available anytime on weekends or after 3pm on weekdays during the month of January.

Sincerely,
Kenet Mejia
