

Final Case Study Presentations

Monday May 20th 8:30am

ALL BOARDS TO BE FORMATED: 36" x 24" LANDSCAPE

(PRESENTATIONS ON PROJECTOR)

- Introduction (Who/ What/ Where of the building you studied)
- Typical Floor Plans (Ground level & Upper floor minimum)
- Building Exterior Elevations & Sections
- Building Structural System (Steel framing plans, Axons, etc.)
- Façade Study (curtain wall details/ diagrams etc.)
- Egress Study of 1 upper floor (Occupancy Calculations, diagrams)

Important notes:

-Presentation counts, part of your grade will be how well you convey the information graphically

-Label everything clearly so someone could understand the information you are presenting without your oral explanation. Be sure to make text at a legible scale for the projector and/or for printing at (24"x36")

-Make every image or diagram count, no "filler", more is not better
