

GENDER-NEUTRAL CLOTHING

By Alexis Vega Velez

Varvara Stepanova

Wearing specific
gender clothing
Sacrifice of physical
freedom

Stepanova sought to free
the body in her designs,
emphasizing clothing's
functional rather than
decorative qualities.

Develop expendable
means of clothing
production through
simple designs and
strategic, economic use
of fabric

If people all wear the same thing then
there is one less thing to be judged
upon

Looking at photos, Stepanova
reminded me of an androgynous
person! which made me wonder, did
she create this clothing with herself
in mind?

WHAT SUBJECTS WOMEN TO WEAR SKIRTS AND MEN TO WEAR PANTS?

- “A woman must not wear men’s clothing, nor a man wear women’s clothing, for the LORD your God detests anyone who does this.” (New International Version)
- Pants were easier to ride horses with and go to work in which is what men did
- Skirts were easier for women to use the bathroom and give birth (since birth control did not exist)

WHY DON'T MEN WEAR MORE FEMALE CLOTHES?

Some male personal answers:

“Nah, that’s mad gay”

“Why would I put on female clothes, if I’m a man?”

“Do I look like a faggot?”

Jaden Smith is not transgender and the rumors around his possibly being gay either came about as a result of his choosing to wear female clothes which he said was his way of challenging gender stereotypes.

Speaking afterwards, Smith said he did not mind taking all the flak for his choice today so that a kid who does so in the future does not get bullied.

TIMES ARE CHANGING

The line between gender clothing is becoming hazy

MORAL OF THE STORY

Gender Neutral clothing is not trying to change your gender. It is trying to bring judgement to rest. If we all wore the same clothing, then there would be less judgement on the physical appearance of a person.

We are too much into what society thinks of us that many people find it hard to express who they truly are. The new generation is now shaping the views of society a little at a time and people are finally realizing whether they like it or not.
