Arch 1290 Architectural CADD & Arch 1200 Architectural Drawing II

Assignment Sheet

Site Inventory and Analysis

Inventory: *A site inventory is a listing of what can be observed or researched about a site without making a determination of its value as an asset or liability.*

Analysis: *A site analysis evaluates each item on the inventory and determines its relative value as an asset or liability. In order to complete an analysis one must have a predetermined use or program for the site.*

A partial list of categories for Inventory and Analysis include the following:

Circulation	Parks and Open Space
Land Use and Zoning	Solar Aspect and Exposure
Hydrology	Topography
Vegetation	View to and from the site
Acoustics	

As a Team complete a photographic survey of the site and upload these images to your team website organizing them in categories as per the list above.

Grading (scored from -1 to 3 as follows:)

Excellent Work = 3	Work is downgraded for lateness
Good Work = 2	1 day late = -1
Minimum Work = 1	2 days late = -2
Unacceptable = 0	Completed more than 2 days late = -3
