

LIB 1201 - Research & Documentation for the Information Age

Prof. Anne Leonard

Email: aleonard@citytech.cuny.edu

Phone: 718.260.5487

Office: A439b (Library)

Mon/Wed 10:00-11:15am

Section: 9930

Room: A543 (Library)

Spring 2012

Office Hours: Mon/Wed 11:15am-12:15pm

Course Website: <http://openlab.citytech.cuny.edu/lib1201s9930>

Course Description

In this course we will explore issues in research and documentation for text (in print and online), images, sound, and multimedia. You will investigate where information comes from and how it is organized in both traditional and emerging media. We will examine the ethics of information use and determine how to critically evaluate sources. Throughout the course, you will create and present research and documentation projects using traditional and emerging media and technologies. This is a writing-intensive course. You should expect to spend 4-6 hours outside of class time preparing for class each week.

Course Goals

To introduce you to the theory and practice of research and documentation for all information and media, including:

- Cultural, economic and political factors that affect information and media
- The organization of information in multiple formats
- Developing methods for finding information that is relevant to you
- Critically evaluating information and its sources
- Copyright, fair use, and ethical use of information and media
- The role of documentation and citation in scholarly, professional, and public work

Learning Outcomes

For the successful completion of this course, you should be able to:

- Describe the ways that information is produced and organized in a variety of formats
- Create and articulate a relevant, manageable research topic for your assignments
- Successfully search for and acquire appropriate information about your research topic in a variety of media and formats
- Critically evaluate and select information sources for your assignments and projects
- Use information ethically and responsibly with an awareness of copyright and fair use
- Synthesize information on a topic from a variety of sources and present your analysis in writing and orally
- Collaborate with a group to complete, modify, and document a process online
- Apply documentation methods and citation styles appropriately in your own work

Course Policies

Contacting the professor: Please speak with me if there is anything you find unclear about the readings or assignments, or if you have concerns about your work in the course. Email is the best way to contact me – I will respond within 48 hours (and usually sooner). I also hold regular office hours at 11:15am-12:15pm Mon/Wed and by appointment.

Attendance: You are expected to attend every class during the course. The City Tech attendance policy allows a student to be absent during the semester without penalty for up to 3 class sessions. Additional absences will lower your grade in this course.

Lateness: Please be on time for class. Late students may miss important course material and can be disruptive to the rest of the class. Excessive lateness will lower your grade in this course.

Deadlines: All assignments are due on the dates listed in the Course Schedule below. Failure to submit work on time will result in a lower grade for the assignment.

Etiquette: Please be respectful of the opinions of others during class discussions and blog interactions. Please silence your cellphone during class, and do not text or IM unless requested to by the professor. Eating is not permitted in the library's flexible teaching space, but you may bring a drink with a lid.

Plagiarism: All assignments and work in this course **must** be your own, and you **must** give proper credit to any information or ideas that are the work of others. No credit will be given for plagiarized work. Please familiarize yourself with the college policy on plagiarism:

NYCCT Statement on Academic Integrity:

Students and all others who work with information, ideas, texts, images, music, inventions, and other intellectual property owe their audience and sources accuracy and honesty in using, crediting, and citing sources. As a community of intellectual and professional workers, the College recognizes its responsibility for providing instruction in information literacy and academic integrity, offering models of good practice, and responding vigilantly and appropriately to infractions of academic integrity. Accordingly, academic dishonesty is prohibited in The City University of New York and at New York City College of Technology and is punishable by penalties, including failing grades, suspension, and expulsion.

Further information (including penalties for plagiarism at City Tech) can be found in the Student Handbook: <http://www.citytech.cuny.edu/files/students/handbook.pdf>

Additional Resources for Students:

The College Learning Centers offer tutoring and writing support in 2 locations: Atrium G18 and Voorhees 217. For more information: <http://websupport2.citytech.cuny.edu/learningcenters/>

To use a computer on campus visit one of the Computing Centers: <http://cis.citytech.cuny.edu/SSLabs.htm>

I hope that you will become very familiar with the City Tech Library during this course. For additional research support, please don't hesitate to visit the Reference Desk or the library website: <http://library.citytech.cuny.edu>

Assignments and Grading

Your grade in this course will be based on:

- | | |
|--------------------------------|-----|
| • Class participation | 15% |
| • Blog posts on course website | 20% |
| • Research topic proposal | 5% |
| • Annotated bibliography | 7% |
| • Research paper – outline | 3% |
| • Research paper – draft | 10% |
| • Research paper – final | 15% |
| • Online documentation project | 15% |
| • Class presentation | 10% |

Participation in class discussions and activities: You are expected to complete all readings/viewings and come to class prepared to discuss them. Please bring at least 1 question about the readings to **every** class. In-class activities will include developing research topics, formulating search strategies, evaluating information, etc. You are expected to check the course site several times a week for updates, announcements, links to readings, and other important information not covered on the syllabus.

Blog: Short blog posts are required throughout the course. See deadlines in the course schedule (below), and details on the course blog <http://openlab.citytech.cuny.edu/lib1201s9930/>

Research topic proposal: In consultation with the professor, choose a research topic relevant to the course and write a 100 word proposal. You will use this research topic for your annotated bibliography and research paper.

Annotated bibliography: Select a minimum of 5 sources in a variety of media formats on your research topic and create an annotated bibliography (100 words minimum per source).

Research paper outline: Organize the main ideas that you will discuss in your research paper and show the relationships among the ideas you write about. A well-organized outline make the writing process simpler and more straightforward.

Research paper: Write a research paper on your approved topic. Papers must be 5-8 pages in length (not including illustrations or Works Cited), typed, double-spaced. You are required to submit **at least one draft** of your paper which **must be revised** before submitting the final version (see deadlines in the course schedule below).

Online documentation project: In small groups assigned by the professor, students will build an online resource and collaboratively document their process.

Class presentation: Each student group will give a 10-15 minute class presentation describing their online resource and presenting the finished online documentation project.

Full details and requirements for each assignment will be discussed in class and posted on the course blog.

Required Textbook

Badke, W. B. (2011). *Research strategies: Finding your way through the information fog*. New York: iUniverse, Inc.

This book is available for less than \$20 in the City Tech bookstore, and I strongly recommend that you buy it. We will read almost the entire book and it should also be useful to you in other courses. Please use either the third edition (2008) or the fourth edition (2011).

You can also buy it as an eBook (for Nook, Kindle, and other formats including PDF) for \$8-10 through the author's website: <http://acts.twu.ca/Library/textbook.htm>

The book is also on reserve in the library: CALL NUMBER: Z710 .B23 2008

Additional materials to read or watch are assigned for each class; see the Course Schedule (below). Most are available online (at no cost to you) in library databases or on the internet; the rest are on reserve in the library. Links to materials available online are posted on the course blog.

Required Technology

Reliable access to the internet and to a computer with word processing software are essential for successful completion of assignments. Up to 20% of your grade is dependent upon regular contributions to the course website. Most readings are available via the course website or as a link on this syllabus. The online documentation project requires your group to develop a web-based resource. All written assignments must be word-processed. Lack of internet access is not an acceptable excuse for late or incomplete assignments.

Recommended Reading

There are no assigned readings from these books, but you may find them helpful to consult during the course (they are on reserve in the library).

Devine, J., and Egger-Sider, F. (2009). *Going beyond Google: The invisible web in learning and teaching*. New York: Neal-Schuman Publishers, Inc. CALL NUMBER: ZA4237 .D4 2009
Discusses expert searching of "deep" web resources, may be useful for research on your paper/project topics.

Riedling, A. M. (2006). *Learning to learn: A guide to becoming information literate in the 21st century*. New York: Neal-Schuman Publishers, Inc. CALL NUMBER: ZA3075 .R54 2006
This book is similar to our textbook, and offers another set of guidelines for research and writing.

Course Schedule

All readings and assignments are due **at the beginning of class** on the date listed below. Please **write down and bring at least one question** about one of the readings to **every** class, and come to class prepared to discuss **all** of the day's assigned readings.

Mon 1/30 Introduction to the course; review syllabus; sign up for OpenLab

The Information Landscape: Media and Production

Wed 2/1 Brief history of media; the lifecycle of information; traditional print media: journalism, academic/government/research agency publications
Reading: Read Badke: Preface, Ch. 1 and Ch. 8
Assignment: Write one reading response blog post

Mon 2/6 Digital text: online versions of print media, "born digital" content
Reading: Pavlik pp. 1-8, Harrington and Meade pp. 6-9;
Viewing: Common Craft blogs and wikis videos
Assignment: Write one reading response blog post

Wed 2/8 Alternative media: print (zines, pamphlets, etc.) and electronic (blogs, wikis, etc.)
Reading: Eland, Zine World, Wright (Part I only)
Assignment: Comment on at least one blog post

Mon 2/13 College closed; no class or office hours

Wed 2/15 Non-text media: sound, images, multimedia
Reading: Pavlik pp. 79-84, Malitz, Elton
Assignment: Write one reading response blog post

Mon 2/20 College closed; no class or office hours

TUES 2/21 **MONDAY SCHEDULE** Web 2.0 and participatory media
Reading: Web 2.0 (Wikipedia), Baker; *Viewing:* Common Craft social media video
Assignment: Write one reading response blog post

Issues in Information and Media

Wed 2/22 Access: personal, institutional, digital divide
Reading: Martin Ch. 7
Assignment: Write one reading response blog post

Mon 2/27 Privacy: changing definitions; challenges of digital media
Reading: Marshall, P. (2009, November 6). [Online privacy](#). *CQ Researcher*, 19, 933-956.
boyd, d. (2008). [Facebook's privacy trainwreck](#).
Assignment: Write one reading response blog post

Wed 2/29 Ethics: Plagiarism
Reading: Isserman
Assignment: comment on at least one blog post

Mon 3/5 Copyright and fair use; open access
Reading: Center for Social Media sections "Code" and "Principles"; *Viewing:* Grey, Lessig, Faden
Assignment: Write one reading response blog post

How Information and Media Are Organized

Wed 3/7 Metadata: information about information, taxonomies, folksonomies
Reading: Badke Ch. 4, Dye, Harrod

Assignment: Comment on at least one blog post

Mon 3/12 Search mechanics: what is a database, how does a search engine work
Reading: Badke Ch. 3, Liddy, Leibman
Assignment: Write one reading response blog post

Wed 3/14 The research process: needs assessment, preliminary strategies, topic development
Reading: Badke Ch. 2
Assignment: Comment on at least one blog post

Finding Information and Media

Mon 3/19 The research process: refining a topic, creating search strategies
Reading: Badke Appendix 1 pp. 177-195, review Badke Ch. 3 pp. 34-41

Wed 3/21 Searching: internet
Reading: Badke Ch. 6 (all) and Ch. 7 pp. 122-124; *Viewing:* Common Craft web search strategies video
Assignment: Write one research journal blog post; see blog for prompt
DUE: Research topic proposal

Mon 3/26 Searching: library catalogs
Reading: Badke Ch. 5 pp. 71-76, Library of Congress Classification Outline
Assignment: Write one research journal blog post; see blog for prompt

Using Information and Media

Wed 3/28 Searching: article databases
Reading: Badke Ch. 5 pp. 76-95
Assignment: Comment on at least one blog post
DUE: Annotated bibliography

Mon 4/2 Evaluation of sources in any format: how to evaluate
Reading: UC Berkeley, Cornell
Assignment: Write one research journal blog post; see blog for prompt

Wed 4/4 Evaluation of sources in any format: why to evaluate; evaluation game
Reading: Fister, Grimmelman
DUE: Research paper outline

Mon 4/9 and Wed 4/11 classes cancelled; Spring Break. **Library is OPEN 9-5 Mon-Fri**

Mon 4/16 Writing an academic research paper
Reading: Badke Ch. 10 and Appendix 1 pp. 196-203
Assignment: Write one research journal blog post

Wed 4/18 Rationale for documentation and citation
Reading: Hauptman pp. 7-13
Assignment: Write one reading response blog post
DUE: Research paper draft

Mon 4/23 Documentation: standards, methods and styles for citing text and non-text media
Reading: Badke Ch. 9, browse Purdue OWL's APA and MLA Style sections

Wed 4/25 Documentation: practical applications
Assignment: Find one example of process documentation in any format, read it, and write one blog

post in which you describe, summarize and critique it. Be prepared to discuss your example in class!
Reading: Edge, Robinson

Mon 4/30 Documentation: standards, methods and styles for practices and processes

Wed 5/2 Introduce group project & form groups
DUE: Research paper final version

Mon 5/7 Group project work

Presentation of Information and Looking to the Future

Wed 5/9 Future of information and media, wrapping up
Viewing: Sloan

Mon 5/14 Group project work

Wed 5/16 Reading day; no classes scheduled. Groups are strongly advised to meet and prepare the presentation and project; the e-classroom will be available for group work.

Mon 5/21 Student Presentations

Wed 5/23 Student Presentations
DUE before the beginning of class: Online documentation project
