

**LIB 2205ID LEARNING PLACES: UNDERSTANDING THE CITY**

1 classroom hour, 4 lab/studio hours, 3 credits  
Tuesdays & Thursdays, 2:30-4:35pm, L543

**Course Description:** This special topics course offers an interdisciplinary approach to investigating our built environment using a case study focused on a specific place each semester. This course combines physical examination with information research and data collection using methodologies developed in multiple disciplines. Students from a variety of departments engage in on-site exploration and in-depth research of a location in New York City. Faculty from the Library and Architectural Technology Departments are teaching the course this semester, and will thus focus course material through a lens of architecture, urban studies, and information studies.

**Course context:** This special topics course is an Interdisciplinary Liberal Arts and Sciences Course that applies toward the BTech/BS General Education Common Core College Option requirements.

**Prerequisites:** ENG 1101 and any Flexible Core Course

**Instructors:**

Prof. Anne Leonard, Library | [aleonard@citytech.cuny.edu](mailto:aleonard@citytech.cuny.edu) | office hours: L543b Tuesday/Thursday 4:45-5:45pm and by appointment

Prof. Jason Montgomery, Architectural Technology | [jmontgomery@citytech.cuny.edu](mailto:jmontgomery@citytech.cuny.edu) | office hours: Tuesdays 1:15pm-2:15pm, Fridays 2:15pm-3:15pm V207 and by appointment

**Required Supplies:** notebook, pens, pencils for sketching and taking notes, digital camera or smartphone. Additional cameras are available to borrow; please speak to the instructor

**OpenLab course site:****Recommended Texts:**

Badke, William. *Research Strategies: Finding Your Way through the Information Fog*. New York: luniverse, 2017. (Reserve Z710 .B23 2017)

Crowe, Norman, and Paul Laseau. *Visual Notes for Architects and Designers*. Hoboken, NJ: Wiley, 2012. Print. (Reserve NA2750 .C76 2012)

**Attendance Policy:** This course relies on your participation in class discussions, presentations, group projects, and research visits. Therefore, you should plan on attending every class meeting and participating fully. Absences and tardiness will have a negative effect on your grade.

**Course Structure:** This course combines a series of research seminars with fieldwork, site visits, and on and off campus research. Combinations of individual and team assignments as well as class participation are the basis for the final grade. The culmination of the weekly assignments is the final project, a podcast. The final project will be published on the OpenLab and will be accessible to the entire City Tech community.

**Grading:** Final grade will be determined according to the following grade weighting:

25% Site Documentation Reports (2)

15% Mid-Term Presentation

15% Group Outline

20% Group Annotated Bibliography

15% Group Final Project: Podcast

10% Class Participation (Discussions+Blog Posts+Reflections)

**Academic Integrity:** Students and all others who work with information, ideas, texts, images, music, inventions and other intellectual property owe their audience and sources accuracy and honesty in using, crediting, and citing sources. As a community of intellectual and professional workers, the college recognizes its responsibility for providing instruction in information literacy and academic integrity, offering models of good practice, and responding vigilantly and appropriately to infractions of academic integrity. Accordingly, academic dishonesty is prohibited in The City University of New York and is punishable by penalties, including failing grades, suspension and expulsion.

16	Tuesday, March 26	Mid-Term Presentations (Summary, Theme, Method, Outline, Bibliography)
17	Thursday, March 28	Mid-Term Presentations (Summary, Theme, Method, Outline, Bibliography)
18	Tuesday, April 2	Final Project: Theme + Group Formation
19	Thursday, April 4	Group Work: Outline
20	Tuesday, April 9	Research Seminar: Annotated Bibliography
21	Thursday, April 11	Group Work: Research
22	Tuesday, April 16	Group Work: Research
23	Thursday, April 16	Group Work: Annotated Bibliography; Outline due
	Tuesday, April 23	<b>Spring Break; library is open 9-5</b>
	Thursday, April 25	<b>Spring Break; library is open 9-5</b>
24	Tuesday, April 30	Group Work: Final Project; podcast workshop
25	Thursday, May 2	Group Work: Final Project; Annotated Bibliography due
26	Tuesday, May 7	Group Work: Final Project
27	Thursday, May 9	Group Work: Final Project Editing
28	Tuesday, May 14	Group Work: Final Project Editing
29	Thursday, May 16	Final Project Presentations
30	Tuesday, May 21	Final Project Presentations / Wrap Up

**General Education Learning Outcomes / Assessment Methods**

<b>Learning Outcomes</b>	<b>Assessment Methods</b>
Upon successful completion of this course the student shall be able to:	To evaluate the students' achievement of the learning objectives, the professor will do the following:
1. Develop, purposefully connect and integrate knowledge from a range of architectural, urban studies, information science, and other disciplinary perspectives presented in the course.	1. Review the final report assignment to evaluate integrative, multidisciplinary thinking.
2. Utilize skills in inquiry/analysis to derive meaning from experience as well as gather information from observation.	2. Review the students' site documentation report, research notes, and diagrams
3. Demonstrate and apply information literacy aptitude by gathering, interpreting, evaluating and applying information discerningly from a variety of sources.	3. Review the students' research methodology proposal, annotated bibliography, and team research assignments to evaluate critical thinking and analysis across disciplines.

**Interdisciplinary Learning Outcomes / Assessment Methods**

<b>Learning Outcomes</b>	<b>Assessment Methods</b>
Upon successful completion of this course the student shall be able to:	To evaluate the students' achievement of the learning objectives, the professor will do the following:
1. Purposefully connect and integrate across-discipline knowledge and skills to solve problems.	1. Review student reflections and Wikipedia assignment to evaluate integrative, multidisciplinary thinking.
2. Synthesize and transfer knowledge across disciplinary boundaries.	2. Review student reflections and the final report assignment to evaluate integrative, multidisciplinary thinking
3. Comprehend factors inherent in complex problems.	3. Review the students' research methodology proposal, and bibliography to evaluate critical thinking and analysis across disciplines.
4. Think critically, communicate effectively, and work collaboratively	4. Review the students' class participation and research notes and diagrams; review the final report to evaluate critical thinking, effective communication, and effective collaboration.
5. Become flexible thinkers.	5. Review the students' site documentation report, notes, sketches, and photographs to evaluate the discovery process.

**Course Intended Learning Outcomes / Assessment Methods**

<b>Learning Outcomes</b>	<b>Assessment Methods</b>
Upon successful completion of this course the student shall be able to:	To evaluate the students' achievement of the learning objectives, the professor will do the following:
1. Use the city as a laboratory for learning.	1. Review the students' site documentation reports, notes, sketches, and photographs to evaluate the care of observation and the reflection of important issues discovered.
2. Develop a methodological approach to research.	2. Review the students' research methodology proposal, annotated bibliography, and team research assignment to evaluate critical thinking and analysis across disciplines.
3. Understand the cultural, social and economic processes that guide the physical development of the built environment.	3. Review the students' research notes and diagrams; Review the team research assignment and the final report assignment to evaluate integrative, multidisciplinary thinking.
4. Use analytical skills to investigate places	4. Review the students' site documentation report, notes, sketches, and photographs to evaluate the care of observation and the reflection of important issues discovered.
5. Develop, document, catalogue, and organize information to make it accessible to the public.	5. Review the students' site documentation report, notes, sketches, and photographs to evaluate the care of observation and the reflection of important issues discovered; review the final report to evaluate integrative, multidisciplinary thinking.
6. Apply observational skills to research and analysis.	6. Review the students' notes, sketches, and photographs to evaluate the care of observation and the reflection of important issues discovered.
