# SITE REPORT #2B

Name: Edith Munoz

Date: October 16, 2018

## FURTHER RESEARCH

Choose and revise one of your **QUESTIONS for FURTHER RESEARCH** from part 1A of this report.

Revised Research Question:

Does gentrification benefit our community?

Find a book, article, government document, or map that could help you answer your question.

MLA Citation for Book, Article, Government Document, or Map:

**Staff. *Atlantic Yards Clears Hurdles; Atlantic Yards project in Brooklyn gains more approvals.* New York Construction, February 1, 2007.**

Why did you select this source? How does it address all or part of your research question?

I choose these two articles because at the library I did more research on the Atlantic Yard. It

showed me how people protested because of the things that were being done. Also, around 2011, \$4.9 billion were for about 16 large buildings. But how does this bring benefit to our community? What about the homeless? These two articles show how new buildings are being built, but I think they worry more about the money than how to help the homeless people. It brings a benefit, but economically.

Describe the process you used to find this source including any keywords and the search engine or tool you used to search. If you found it during our Brooklyn Collection site visit, how did you find it?

I used Brooklyn Daily Eagle, I used keywords such as Atlantic Yard, brooklyn, gentrification and homeless. There is a lot of information which is current and it is interesting to know what is happening in our community. Although, it is exposed to many articles, gentrification is a big issue in our community. Also, I found some of my research during our site visit, by getting the folders that said Navy Yard. I saw how people were protesting because of the parking lot and the Barclay center. I also saw a book in which talks about every area of brooklyn and how has it changed overtime.

What other sources or further information would help you answer your question? Where would you look for them?

I would look more into articles and newspapers because the reporters kept everything updated based on what was happening in Brooklyn. Also, it shows the changes that were supposed to be made. In the other hand, I would look at maps to compare how much our city has changed and what was replaced for what. I would try to find if any establishments were proposed, but were not built and why.
