

# SITE REPORT #2B

Name: Daniela Nepomuceno

Date: October 16, 2018

## FURTHER RESEARCH

Choose and revise one of your **QUESTIONS for FURTHER RESEARCH** from part 1A of this report.

Revised Research Question:

What impact causes gentrification to the community?

Find a book, article, government document, or map that could help you answer your question.

MLA Citation for Book, Article, Government Document, or Map:

Moskowitz, Peter. *How to Kill a City: Gentrification, Inequality, and the Fight for the Neighborhood*. New York, NY: Nation Books, 2017.

Nicholas. "The People Speak (Shout, Actually) on Brooklyn Arena Project." *New York Times (1923-Current File)*, 2005, p. B1.

Why did you select this source? How does it address all or part of your research question?

I choose both of this source because it helps to look out for the community reaction on gentrification. The sources come from the voice of the community, which is the part where I want to base my research on.

Describe the process you used to find this source including any keywords and the search engine or tool you used to search. If you found it during our Brooklyn Collection site visit, how did you find it?

The book I found it during our site visit to the Brooklyn Collection when we went to the visit as the librarian was showing us the materials the name of the book called my attention. I went right away to asked her if I can see the book, the book is divided into three section. Each section comes from a different state of the United States, the third section is New York. moreover, for the article, I have to search for more complex terms since we are looking at a specific area. Since I am focusing on gentrification, I look up for community reactions on gentrification on the Atlantic Yards. A few articles come up, and the article I choose was the top one to fit into my criteria.

What other sources or further information would help you answer your question? Where would you look for them?

There are many more articles that would help me answer the question, I think that articles are the best one to look for since most of them come from newspapers. The newspapers were the ones that were directly taking information from the community on how they feel about what is happening to them. I think that the newspapers give me a more vivid experience of the people and their reaction.
