## ABOUT ME

Write a brief paragraph to introduce yourself to your visitors and explain what they will find on this site. Be sure to add more developed content to your Introduction page. (Edit this paragraph in Dashboard > Widgets > Text)

# Introduction

This is a good place to introduce yourself and explain what visitors will find on this site.

As you progress through your academic career at City Tech, add content to the Portfolio sub-section pages to show your department, graduate institutions, or future employers how well prepared you are for your chosen career.

This ePortfolio is set up with a Portfolio and Resume structure. If you'd like to use the Journal and create posts to document your learning experiences and class assignments, choose Appearance > Menu and add the Journal page.

Edit this page to get started! Contact the [OpenLab](#) for help.
