

Lauren Mahon

Summary

For culmination, I will be working with Miguel Valderrama, assisting him with programming, hanging and creating designs for one of the shows that he will be working on.

Plan

- Meet with Professor Valderrama and the team working with him
- Use my skills that I've learned in my previous classes to work on this project
- Brush up on things I have forgotten and do research to gain some extra knowledge.
- Understand the space I will be working in and familiarizing myself with the grid
- Figure out and understand the lighting plot, magic sheets, instrument schedule etc.

Project Description

- Load in, patch, focus lights
- Address lights and check dimmer rack
- Focus lights
- Make and run cues, make sure all tech is done correctly
- Run show
- Strike/Load out after show

Deliverables

Instrument schedules, light plot, cue sheet, magic sheet, channel hookup
