## WHY YOU SHOULD HIRE ME?

I'm from Caracas, Venezuela and my fluency in Spanish is a plus. As a student at the New York City College of technology, I'm in Communication Design major, working towards my BFA. I design logos, images and spreads using typography and illustrations to express my ideas beautifully. I Have knowledge on the use of different systems of the Adobe Creative cloud, but I consider myself a fast-learner always eager to learn more. I'm currently working as a hostess and my experience has led me to develop excellent customer service skills.
