JAWS Club (JUST ASSISTING WITH SMILES)

History

The Jaws Club was founded in 1977 by four young NYCCT students in the department of Restorative Dentistry. These four individuals were Nicholas Manos, Daniel Solomon, Victor Masi, and Neal Apuzio. The club's name came from the popular film 'Jaws' .

Mission Statement:

"The club's mission is to increase the awareness of the importance of Restorative Dentistry for all City Tech students.
"A healthy mouth ensures a healthy individual."

The Club achieves its mission through hosting parties, special events and participating in school programs. The Jaws club was recently awarded as the most improved club of the year.
