hi everyone: Greetings!

I sent this to Susan but with the craziness of the new semester, I thought I'd reach out to all of you directly. I just got a message from our chat reference from a likely 3502 student so I want to make sure that all of you know that I created a [library guide](#) for 3502 and there is a flipped assignment that Claire and others found got students ready for the library workshop and/or beginning their research process.

thanks, Monica

hi Susan: I thought I'd share with you the [library guide](#) I created to support hmg3502. I only taught one synch session for Mark and the students didn't do the flipped assignment but I've had great success with the flipped assignment before we went online. If you could share this out with the course instructors, I'd appreciate it. Feedback for improvement is always welcome. best, Monica

Thanks so much Monica. What a useful tool. I will definitely let my classes know.
I hope all is well with you.

Hi Monica! Thanks for a great presentation today! You helped a lot! It is very valuable for the students to get this personal instruction. The “flipped” exercise was terrific. We did it together in the computer room last week and it got them into the site and got them talking.

Nice job!

Claire

To: Monica Berger <MBerger@citytech.cuny.edu>;

Dear Monica

I will certainly pass this link along to the food waste students. (there are more than one.) the sessions today and last eve were very helpful. You structured things well, paced it nicely and went through steps slowly so we could take it in. The topics you covered were just what I wanted. I always want more participation from students but this time was pretty good, I think. Many students told me that this is just what the doctor ordered. They have a lot more tools in their dop kit now. (Or is it a medical bag?

Thanks a million, Monica

you might want to pass on to students working on this subject. The researcher's very recent article was a little tricky to find so I'm attaching it. She wrote an earlier article as well.

Subject: A Small Thank You!

Dear Professor Berger, I would like to say "thank you" on behalf of the Research Seminar class of Professor Phillip and from myself for coming to talk to us about using the school's library and how to navigate through the online resources to find what we need. You have opened my eyes for sure on my potential research topic "terrorism effects in tourism". I have been to the library a few times but I never knew how vast the amount of resources were available to me until you pointed it out to us today. I am sure that I will find valuable and specific information through the online library which will let me do well on my research paper. Again, Thank you very much.

Sincerely,
Harry

Dear Monica,

Thank you for yesterday. I know that you prefer to come later in the semester but, based on feedback from the students, I think they benefitted from the early instruction. So many of them do not use the library. Sadly, too, they are not given assignments that require them to do research.

Regards,
Susan

Subject: Re: Confirming our visits

Thanks again for your time on MONDAY. I am pleased that the students are really thinking deeply. The visit inspired some to get more serious about what they need to do and so that was useful. GOod luck on your book proposal and until next time....

Alexandra

>>> Monica Berger 09/19/16 12:55 PM >>>
thanks Alexandra. Looking forward to working with you again!

>>> Alexandra Leaf 9/19/2016 11:13 AM >>>
Hi Monica,
Got it. We may be 10 mins late, so 2:40 because I will collect up everyone and then come down to the library. See you this afternoon.
Thanks. Alexandra

>>> Monica Berger 09/19/16 9:54 AM >>>
hi Alexandra: please meet me with your class at 2:30 and 6 pm respectively outside the library entrance. Please email or text me at 718 781-9422 if you are running late. Your 2:30 class can stay in the class room past my session but not the 6 pm session since I need to go home to rest after a full day and will need to shut down our eclassroom. thanks, Monica

>>> Alexandra Leaf 9/18/2016 10:36 PM >>>
HI Professor Berger,

It's Professor Leaf of the research methods class. WE met last semester when I brought my students to you.
We set up a library meeting with you for tomorrow MON SEPT 19th. I don't recall the time you asked us to arrive for the afternoon class and for the evening class.
2:30-5 day class
6-8:30 evening class

Thanks,
Alexandra

Monica,

The session was very helpful to the students. They were excited by Statista. You were in good form. Thank you.

Regards,
Susan

hi Susan: We may add Statista to the future handout.

Anne also put a concept map on her handout but I think it hasn't been added to our Dropbox yet. thanks, Monica
