Professor Trofimova

COMD 1112 – Documentary Paragraph

I emailed Professor Trofimova when the class was given the interview / filmmaking project. I live with my dog and no humans so I wasn't sure how to complete this assignment. Professor Trofimova replied and gave me some ideas about "interviewing Mozart(my dog)" or trying to set up a zoom meeting with my family. My family is antisocial and won't agree to a Zoom meeting so I've decided to "show the life in a day with Mozart and foster kittens". One of my classmates, Vincent Chen, asked to interview me so I said sure. We completed our interview today (May 5<sup>th</sup>) but I told him that I'm doing my own film project so he's free to use my footage.
