INVOICE DATE 4/25/17

We propose to design, supply materials, shop fabricate, and install new base assembly to surround existing memorial base with provisions for the installation of new LED fixtures. The new base will be approximately 12' - 0" in diameter and approximately 9" high. The base will be of precast concrete in segments and the top/ mounting surface will be of 1/4" type 316L stainless steel plate in sections. This top plate will have holes for the LED fixtures and will bolt together, also bolted to the concrete base with tamper resisting hardware. We will deliver and install the entire base assembly including the LED fixtures. All work will be done to code and we are fully licensed and insured.

**Price Breakdown:**

Metal work: including fabrication and materials \$6,500.00

Precast concrete: including molds, casting, and materials \$6,000.00

Lighting fixtures: Vshine up lights with drivers

option 1: 8 fixtures \$2,061.00

option 2: 10 fixtures \$2,530.00

option 3: 12 fixtures \$3,000.66

Delivery, assembly, and installation: \$5,000.00

Licensed electrical work: hookups and required materials \$5,000:00

Total project amount for option one choice: \$24,561.00

Total project amount for option two choice: \$25,030.00

Total project amount for option three choice: \$25,500.66

\*Sales tax will be added if applicable.
