**COURSE POLICIES & PROCEDURES:**

**ATTENDANCE AND LATENESS:**

Class attendance is expected. Class attendance is also taken for financial aid records.

*Attending class late/ excessively late or leaving early will effect grade.* Although students are graded on academic achievement and performance rather than on attendance per se, there are several in class activities, assignments, and quizzes that are completed and handed in during scheduled class times. These assignments are required and contribute to the final course grade.

**Should a student be absent more than two days of a semester course, one must bring in documentation of the day and time of absence on official letterhead.** Students who are not present in class on the days of these assignments will **NOT** be given the opportunity to make-up these activities unless recognized by CUNY-The New York City College of Technology.

It is *strongly recommended* that a student's personal appointments be scheduled at other than class times (*this includes job interviews and medical appointments*).

**If you are absent when an assignment is due, you are responsible for having the assignment turned in during the class period. If you are absent from class, you are responsible for the material covered. *This means you must get the missed work and you are responsible to get the material by contacting your peers.***

In addition to class attendance, it is also expected that students will complete readings and homework as assigned and participate in class discussions to the extent that it is possible in a class setting. Participation is important in this course. When students' share their thoughts and experiences, class concepts become concrete in their minds as well as in the minds of other students. It is the sharing of our experiences that helps us to learn from each other as well as about each other. Members of this classroom will practice inclusively. We will listen to one another's views with respect regardless of race, gender, sexual orientation, or disability.

**ASSIGNMENTS/ NO LATE WORK POLICY:**

**ACADEMIC INTEGRITY POLICY:**

The value of an institution of higher education is dependent upon its ability to maintain the integrity of its academic environment. City Tech is committed to supporting its mission to provide an educational experience designed to Develop professional competencies including developing habits of personal and professional integrity. The College expects all members of its community - - students, faculty and staff - - to act honestly in all situations.

"Academic Dishonesty is any form of cheating and plagiarism which results in students giving or receiving unauthorized assistance in an academic assignment or receiving credit for work which is not their own."

**All students are expected to agree to a pledge of honesty concerning their academic work, and faculty is expected to maintain the standards of that code.**

Academic misconduct is defined as any act that violates the rights of another student with respect to academic work or involves misrepresentation of a student's own work. Academic misconduct includes but is not limited to: cheating on assignments, quizzes, or examinations, plagiarizing pieces of work, depriving others of necessary course work, and sabotaging another's work.

Academic dishonesty on exams, quizzes, or any other graded assignment will result in a *zero* for that graded activity or assignment.

Academic dishonesty includes use of any unauthorized assistance in taking quizzes, tests, or exams; dependence upon the aid of sources beyond those authorized by the instructor, or the acquisition of tests or other material belonging to a faculty member.

Plagiarism includes the paraphrase or direct quotation of published or unpublished works without full and clear acknowledgment of the author/source.

Academic dishonesty will bring about disciplinary action, which may include expulsion from the university. This is explained in the College's online handbook.

*mic dishonesty (is any) form of cheating and plagiarism which result in students giving or receiving unauthorized assistance in an academic exercise or receiving credit for work which is not their own. "(Kibler et. al. (1988), Academic integrity and student development: Legal issues and policy perspectives, Ashville, NC: College Administration Publications, Inc., p. 1.) All students are expected to agree to a pledge of honesty concerning their academic work, and faculty are expected to maintain the standards of that pledge.*

### **INFORMATION (TECHNOLOGY) LITERACY STATEMENT**

**Information Literacy** is a valuable set of skills that empowers students to become agile information seekers who adapt to changing modes of information delivery and are selective, critical, ethical users of information in all formats. These skills are embedded within course work throughout academic programs.

### **ACADEMIC WRITING CENTER (AG-18):**

Any student needing help will find an array of services such as study skills training; support for reading and writing skills; and assistance with mathematics, oral communication and computer applications. Both peer and faculty tutors are available for assistance. The Academic Support Center offers academic assistance to all students through the use of services including tutoring, workshops and access to computer-based programs. For further information, please visit the Academic Support Center on campus and on Blackboard.

### **SAFEASSIGN AS A LEARNING TOOL**

**SafeAssign** helps prevent plagiarism by providing both the student and the professor a feedback report that compares any student work submitted through the software with a comprehensive database of books, journals, websites and papers written by other students. Some of the writing assignments in this course will use Blackboard's **SafeAssign** software to help students improve their skill at paraphrasing statements contained in research on a topic and to help increase awareness of the proper use of citation when a student writes a paper using ideas or statements taken from a research source.

For any assignment requiring research and/or requiring more than two pages of writing, students will be expected to submit that assignment through **SafeAssign** in Blackboard, following the submission guidelines given with the assignment instructions. Prior to submitting a final draft of an assignment, students will have the opportunity to submit several drafts of that assignment to **SafeAssign** in order to get

sufficient feedback from **SafeAssign** reports to help minimize the risk of plagiarism.

- ❖ **If the assignment continues to have evidence of plagiarism in the final draft of the assignment, the professor will file a report to the Department Chair documenting the use of the paper as an action of academic dishonesty.**
  
- ❖ **If a student fails to submit an assignment to SafeAssign, the professor will assign a grade of zero for that assignment. You must meet the time criteria set at City Tech.**
  
- ❖ **Please understand there are time limitations that must be met. Do not e-mail the professor that SAFEASSIGN was not accepting papers after submission time-out. It is then considered LATE, and NO LATE work is accepted. Submit your work early; consider time management.**
  
- ❖ **By submitting a paper to SafeAssign, that paper will become source material included in the SafeAssign database.**

**E-PORTFOLIOS/OPEN LAB**

CUNY-College of Technology asks all students to participate in building a program-long e-Portfolio of the work that they complete while taking classes at the College. Through a process of *collect, select, reflect, and connect*, students learn to judge the quality of their own work, speak about their learning, and present evidence of their current knowledge and skills. College faculty will assist with this process by recommending that you store at least one significant piece of work from each course in your Blackboard content collection. For more information, see the "**ePortfolios at CUNY- College Technology**" organization in Blackboard.
