Subject: Elevator pitch

- I would greet the employee of the architecture firm I want to get a job at
- Mention my interest in design, architecture, and renderings
- Do research on that architecture to find a way to grab the interest
- Don't mention my age, race or references they don't need to know that information it is illegal
- Give them my info card
- show the employee my renderings from my phone and talk about how I can do film and VR renderings
- Tell them "Thank you for taking your time to hear me out"
