Inked Magazine
12 W. 27th Street 10th Floor
New York, NY 10001

I'm writing in response to the inked magazine design intern position, that is exclusively advertised on AIGA. I am a creative thinker and have a great appreciation for editorial design. I have both technical skills and creative while ready to work projects on strict deadlines. I would like to bring my design skills and strong knowledge of typography to work for your company.

I currently am in my last year in undergraduate school pursuing a degree in design. I am skilled in working in teams creating well designed magazine spreads and articles. I can confidently communicate my designs and can work on a tight schedule.

Though I haven't finished undergraduate school I have worked heavily on typography and designing the composition. I've worked with InDesign, Illustrator, Photoshop, and extensive knowledge with other softwares from adobe. I hope to work closely with your team environment and take on those challenges.

Attached will be a resume that should provide you insight on what I have to offer in greater detail. Thank you for your time and consideration.

Sincerely

Mark Luczak
