

Mr. Leonard Petrillo
Professor of New York City
College of Technology
300 Jay Street
Brooklyn, NY 11201

Professor Petrillo of Fine Art,

I want to thank you for giving the knowledge of anatomy and perspective that helped my artwork tremendously. When I decided to be in an art major I didn't quite what it took to become a successful artist. I only knew that I wanted to draw for the rest of my life and I continue to draw everyday. You helped me figure out I wanted to become an illustrator and I shouldn't be scared about the statistics of employment. You recommended me many things to do with my passion for art. You helped me get on track to develop skill that are necessary for a successful illustrator. Such as an understanding for all types of art, an eye that visually notices what makes an artwork work well or not. I couldn't have been more sure about being an illustrator for the rest of my life without your support and kindness.

Thank you,

Mark Luczak,
President of LUC Studios
