To: AIGA Organization

Thank you for offering me a position as an unpaid intern for AIGA organization. I'm aware of how influential AIGA is to the graphic design community and the amazing work your organization does. As well as how busy AIGA with the events planned throughout the year.

I sadly have to decline you offer, to donate my time and professional skills. Currently, I am occupied with my academic studies. I have just recently started the fall semester and will each day of the week full of work. If I was to accept your offer I would fail my courses and in doing so have lost all of my scholarships. I will finish in the semester on December 17,2014.

After December I will be more than happy to donate my time and skills to your cause. I wish you luck finding another intern and hope to hear back from you. If you are still interested in interning me after December 2014 please let me know.

Sincerely ,

Mark Luczak
