The sole of the back part provides elevation and total support unlike every other heel.

WOMEN'S SHOES: Stilettos

Source:

<http://www.bragmybag.com/introducing-the-christian-louboutin-spring-summer-2015-collection/>

A stiletto has very high heels and a super flat sole in the front. I feel like it is a game changer as it changes the wearers normal posture to a seductive posture.

High heels help accentuate a **woman's** figure by forcing the back to arch and pushing the bust forward and buttocks backwards.

WOMEN'S SHOES: Ballet Flat

Source:

<https://www.lyst.com/shoes/michael-kors-fulton-ballet-flats-black/>

A shoe that has a flat sole and a round toe. A shoe inspired by the type of shoes ballerinas wear.
