

## Research Question:

What was the economic impact of MetroTech at both the local context of the immediate neighborhood, and the larger regional context of New York City?

## Thesis:

The development of MetroTech came with negative repercussions such as job displacements, destruction of neighborhood, resident displacement and more. However, the large aspirations of the development resulted in positive changes such as more jobs opportunities, growth in the economy, new businesses formed, office spaces etc. which continues overtime.

## Outline:

1. Introduction
  - History of MetroTech
  - Goals of the MetroTech development(**environmental impact**)
