# 808 PRINTS

808 prints is a brooklyn based screenprinting and embroidery company. I obtained this internship through a client. For my internship i had been told that i would be working on t shirt graphics for the company.

# PROJECT 1

For my first assignment i designed a simple pattern using just 1 color that displays 808 prints. The placement was on the back of a t shirt.

Designed mainly for employees.

SCREENPRINTING • CUSTOM APPAREL

# PROJECT 2

My second project I designed a simple 3 color graphic that displays 808 with a bit of a grunge effect.

The graphic and mock up were done by me and the screen printing was done by the owner.

# PROJECT 3

for my third project i was assigned to  
creat a graphic based on a  
basketball concept

I used illustrator for the vector and  
photoshop for the mockup

# PROJECT 4

On my final project i collaborated on a graphic with a tattoo artist.

The tattoo artist drew up a unique version of the mona lisa. then i had to bitmap this drawing so it could be screen printed.

The screen printing process was a one color job on the mona lisa drawing and another color for the 808 prints logo

I got to work on this project from start to finish because i also screen printed these shirts

# SELF EVALUATION

For my self-evaluation working as a graphic designer and screen printing for 808 Prints a I would have to say I am very surprised at how well i managed to learn and to execute something I have never done before. As a graphic designer I would consider the type of work I do to be great because typically It was work for school or for clients and it would usually be printed on paper or displayed digitally. But I have really learned immensely with the guidance of my boss.

**THANK YOU.**
