Reflection

Too many thoughts, not enough words?

“Come forth into the light of things, let
nature be your teacher.”

—William Wordsworth

Working alongside Miguel, allowed me access to all information regarding the entire production process

From learning how to assess the requirements of a system, identify the correct equipment, dissect a production of this scale into zones, as well as organizing, labelling, and then installing every inch Lightscape.

To simply working in an environment, unlike any I have been apart of, all has truly been invaluable, life changing experience.

Thank you!
