

Culmination Meetings with Technical Advisor

I, Mike Solache understand that it is required for me to meet with my technical advisor at least three times throughout the semester to discuss my culmination project. Each meeting should be at least 30 min. unless the technical advisor determines that a shorter meeting is adequate. I also understand that after each meeting, I must present this form to the instructor of the course and also upload it on my ePortfolio. I will be penalized in the course if I do not fulfill these tasks.

12/4/22

1:30pm	2:00pm	8/26/22	
<p>We had talked about the project and where we were at with the proposal, scheduling for the filming what the film going to be about and the gear we might need in order to film. Like a tripod with wheels as it could come in handy while shooting moving scenes. A good microphone, lighting , and direction on how to film a video don't go in the order of the shot list to go with what is available at the moment. That way we are not going back and forth wasting time on resting the set and changing things up</p>

<p>Content of Meeting: We had talk about our first draft of the film we went over changes that needed to Be made we discussed J and L cuts and how to implement that into our film we talked about possible reshoots for certain scenes or choosing better shots for that specific scene as well as a continuity error. We discussed the ending of the film and ended up removing a fight scene because we felt it was unnecessary. It was also brought up that the audio should be mixed better and adjusted as in some scenes the audio was low and sometimes it would be high.</p>

4:30pm	5:30pm	12/7/22	
<p>Content of Meeting: We discussed the final touches for the edit we made some improvements from the last meeting and added the J&L cuts. We removed the final scene with the fight and re-shooted the last scene that week. We talked about color correction throughout the film to make it seem like its night time. We also talked about adding music and sound effects for the film and mixing the audio.</p>
