

MTEC Connect - Processing Set-Up Guide

The following is a guide to downloading and installing Processing.

1. Navigate to <https://processing.org/download/> and select the download that is most relevant to you (Windows/Mac/Linux).

Download Processing. Processing is available for Linux, Mac OS X, and Windows. Select your choice to download the software below.

3.5.4 (17 January 2020)

[Windows 64-bit](#)
[Windows 32-bit](#)

[Linux 64-bit](#)

[Mac OS X](#)

- » [Github](#)
- » [Report Bugs](#)
- » [Wiki](#)
- » [Supported Platforms](#)

Read about the [changes in 3.0](#). The [list of revisions](#) covers the differences between releases in detail.

2. The link downloads a .zip file, and when it's done open the .zip file and extract the "processing-3.5.4" folder somewhere like the Desktop or Documents
3. The folder you extracted contains a file called "processing.exe". You open this in order to launch Processing. Since Processing exists in that folder then you're all set.
