show already that was life on Sunday at 5 am? No spoilers but Grocery is the one! I refuse to believe that our homework was to pet a cat, it's so hard!!! It took me like 3 hours which is insane!

Name
Yeah, about that homework. I find it offensive that dogs don't count.

Name
Look! I can type something long as well. Professor, will we have a short break as usual for 45 minutes? I think I'll be late today because I'm going to be hit by the car in about 4 minutes. Also, I don't think I can finish my homework on time. Is it possible I can send it to you in 3 years? I just got an idea about what I want to do, and I totally have more than enough time to submit it on time, but why bother, right? Anyway, I would much appreciate it.

Name
Sure thing, no problem! Just, please, email it to me exactly at midnight, and I'll get back to you within seconds with your grade that will obviously be an A.

Type your message...

Exercise: Adobe XD basic wireframes

February 17, 2022

In-class exercise

Overall, nice idea. I enjoyed the consistency within the pages. The project looks unfinished and depressed. Consider giving yourself more time next time, perhaps. If you need any help, please, reach out to me or our CLT.
