

OER Fellowship Seminar I

February 10, 2017 12-2 pm
Projection Room, Library

OER Fundamentals

This presentation by Cailean Cooney is licensed under a [Creative Commons Attribution 4.0 International License](https://creativecommons.org/licenses/by/4.0/).

Agenda

1. Introductions (12:00-12:15 pm)

- Introduce yourself,
- your course,
- and why you decided to develop an OER for your course

2. What are OERs? (12:15-12:45 pm)

-What's the difference between *free* and *open*?

- Group discussion

3. Review OER resources

(12:45-1:00 pm)

- Join the OER Fellowship site;
OER Resource guide

4. OER critique activity (1:00-1:55 pm)

- Think pair share about the OERs you selected
- Bring our observations together as a group

5. Written reflections (1:55-2:00 pm)

What are OERs?

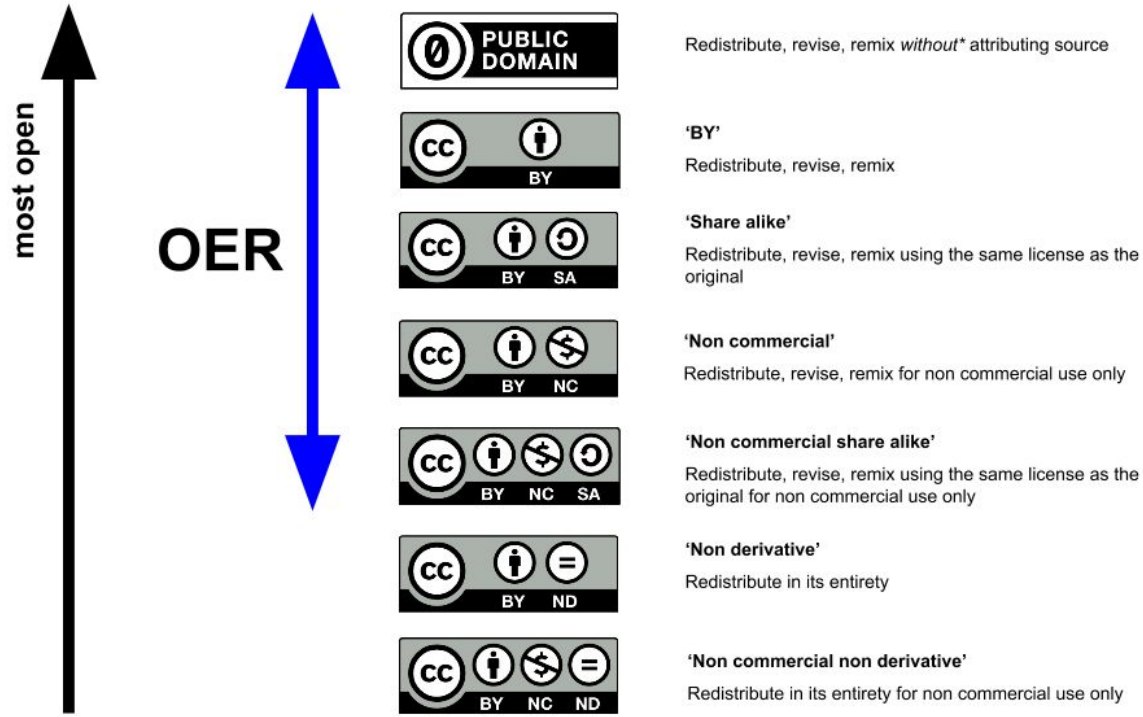

Open educational resources are free and openly licensed educational materials that can be used for teaching, learning, research, and other purposes.

OERs make it possible to:

- **Retain** - users have the right to make, archive, and own copies of the content
- **Reuse** - content can be reused in its unaltered form
- **Revise** - content can be adapted, adjusted, modified, and altered
- **Remix** - original or revised content can be combined with other content to create something new
- **Redistribute** - copies of the content can be shared with others in its original, revised or remixed form

5R's were coined by David Wiley - see his blog post: The Access Compromise and the 5th R available at <https://opencontent.org/blog/archives/3221>

Licensing & Attribution

Decoding Creative Commons licenses

Redistribute, revise, remix *without** attributing source

'BY'

Redistribute, revise, remix

'Share alike'

Redistribute, revise, remix using the same license as the original

'Non commercial'

Redistribute, revise, remix for non commercial use only

'Non commercial share alike'

Redistribute, revise, remix using the same license as the original for non commercial use only

'Non derivative'

Redistribute in its entirety

'Non commercial non derivative'

Redistribute in its entirety for non commercial use only

*  Indicates you must always attribute source
BY

Why Attribute? ...

Why License? ...

OER critique activity

OER Resource Guide

1. Think-pair-share:
 - a. Think about why you selected these OERs and what struck you about them (60 seconds)
 - b. Share your picks with a partner and describe some of your main observations (3 mins.)
 - c. Name the OERs your partners selected and share one attribute per OER
2. Generate a list of attributes that will help us all identify successful components of an OER
 - a. Discuss!

Reflections

See you Feb. 17th!
