

OER Fellowship Application Form, AY 2026-27

Complete this form to apply to the OER Fellowship cohort program for academic year 2026-27. Please contact Prof. Cailean Cooney, OER Librarian ccooney@citytech.cuny.edu or Prof. Junior Tidal, Chief Librarian jtidal@citytech.cuny.edu with questions.

Submission deadline: Fri. May 15th at 11:59 pm EST. [Apply online.](#)

Applicant Information

1. First name
2. Last name
3. City Tech email
4. Department
5. Full-time or part-time teaching status at City Tech:
 - Full-time
 - Part-time

Before proceeding, please indicate that you have consulted with / received approval from department chair and course/discipline coordinators for your proposed OER Project.

- Full-time faculty: I have consulted with my department chair and course/discipline coordinator.
- Part-time faculty: I have received approval from my department chair and the course/discipline coordinator.

Course associated with your proposal

6. Course code. E.g. "**LIB 2205**"
7. Course name. E.g. "**Learning Places: Understanding the City**"
8. Number of hours and credits. Transcribe from syllabus/course outline.
9. Course details:
 - Lecture
 - Lab
 - Lecture & Lab combo
 - Other

10. Is there currently a paid course material for the course?

- Yes, it is mandatory: 10b. Name of course material with citation and a link to the source, as applicable.
- It is optional only: 10b. Name of course material with citation and a link to the source, as applicable.
- No

Optional: Share additional course related context about your proposed OER here. E.g. whether your proposed OER will touch on more than one course, etc.

Optional: upload a copy of the most recent course outline / syllabus.

Proposed Project Type & Scope

11. Will your project include curating, authoring, or adapting a primary course material? E.g. lab manual, open textbook.

- Yes

11b. Name the type of primary course material you propose (lab manual, textbook) and your plan to author original content, adapt existing CC licensed material, curate multiple sources, or a combination.

- No

12. What supporting instructional materials do you plan to create? Choose up to four.

- study guides, thematic / topical learning modules
- multiple assignments / assessments (activities, group work, project work)
- lecture notes or lesson plans
- slide decks
- a series of instructional videos for the course
- a series of openly licensed images (illustrations, photographs, infographics)
- None/NA
- Other

13. Describe what the completed project will be, its purpose, and intended user.

Include:

1. A detailed list of the materials you intend to include,
2. to what extent you will curate/author/adapt the above materials,
3. your rationale for inclusion of materials to support specific teaching and learning needs,

4. your intended users.

14. What mode(s) of instruction do you anticipate using your proposed OER with? E.g. online asynchronous, in person.

15. What is your level of experience with OER?

- Novice
- Basic
- Proficient
- Advanced

16. There are several venues supported by City Tech and CUNY to share your OER project. Preliminarily, what platform do you anticipate is most appropriate for housing your project?

Please rank: 1 most optimal to 3 least optimal.

- City Tech OpenLab site
- Pressbooks
- Manifold

17. What is your level of proficiency with the platforms mentioned above? New users are welcome.
