- [4.2 Prokaryotic Cells](#) (OpenStax CNX)
 - [Prokaryotic Cell Structure](#) (Khan Academy)

Learning Objectives

1. State the components of the cell theory.
2. Illustrate differences in methods of studying cells
3. Describe the domains under Prokarya and differentiate them from Eukarya
4. Give reasons to explain why cells are generally very small
5. State the importance of multicellularity.
