One million civilians and 4,500 soldiers (US) died, trillions of dollars pissed away in the sands, Al Qaida in Iraq created from nowhere, The Middle East completely destabilized.U.S. government did all that just for oil and to show world their Power, was all that really worth it?

Vikramjeet Singh @Vikramj07334223 · 16m

The last U.S. troops left Iraq in December 2011. The war left more than 4,000 Americans dead and 32,000 wounded. More than 100,000 Iraqis lost their lives, and the violence in Iraq continues today.

It was all the aggression of U.S. government to Control over Iraqi oil that should improve security of supplies to the US, and possibly the UK, with the development and exploration contracts between Saddam and China, France, India, Indonesia, and Russia being set aside

Vikramjeet Singh @Vikramj07334223 · 5m

in favor of US and possibly British companies. And a US military presence in Iraq is an insurance policy against any extremists in Iran and Saudi Arabia. The article also shows the arguments that are in the favor of that war and explains how they are wrong.

Vikramjeet Singh @Vikramj07334223 · 21s

world is a better place without Saddam Hussein, but it hurts that the war took millions of lives and trillions of dollars spent." Michael Ignatieff, an academic, human rights advocate, and supporter of the war, says groups like the Kurds and the Shia in Iraq have gained.

Vikramjeet Singh @Vikramj07334223 · 13s

But it's "difficult to believe the war was worth it," he says, given the damage to the U.S. credibility, the strengthening of Iran, and the lack of stability in Iraq.
