Topic

Why are we still fighting against discrimination in the United States even in the 21st century?

What will it cover

- What cause discrimination to happen
 - What is discrimination
- Effects on people for discrimination
 - Whos the audience

Facts

- Discrimination is the unjust treatment of people for their background such as color, race or ethnicity
- Teaching children from the very beginning the differences between people
 - Kids starts to determine at early age who's cool or not
- Body gesture of black and white people are different when they communicate
 - Black people substituted as criminals
 - Racism is being revealed by political leaders

Time to stop discrimination

- Raise voice against discrimination
 - Educate people
- Share resources to raise awareness
- Raise your voice against inequality

Who needs to hear this and why

- General public
- General people whos always being discriminated
 - Always raise voice against inequality
 - Be open minded
- Don't look for differences among people instead look for similarity
 - Don't let anyone treat you like an object
- Citizens has right on everything, they can't be stopped based on their color
 - Color doesn't determine the inner of a person
