Letter to a Future Student

Word Count: 230

I'll tell a future student to relax and enjoy the class. It is not normal, at least not to me, to find a good professor as Jessica Penner is. She explains everything as best as possible. She always starts the class in a good mood. The readings, assignments such as the low-stakes can be a little bit overwhelming since you have to constantly be checking the agenda. However, they are not difficult. They are very easy to do. If I could have done something different in the class, I would make sure to do all the assignments on time.

Even Though I did all my assignments, sometimes I let a day pass for an assignment that is not even long or difficult to do. Also, If you are someone who likes to watch videos instead of reading a lot of pages, then you would like class. The readings are not too long and there are some videos to watch that are very interesting. For the low-stakes and major assignments, you will have plenty of time to do them. Take a day to start the project and the next day you can continue it or finish it. You don't need to rush because she gives enough time for you to complete them and give them in.
