# Dé Familia

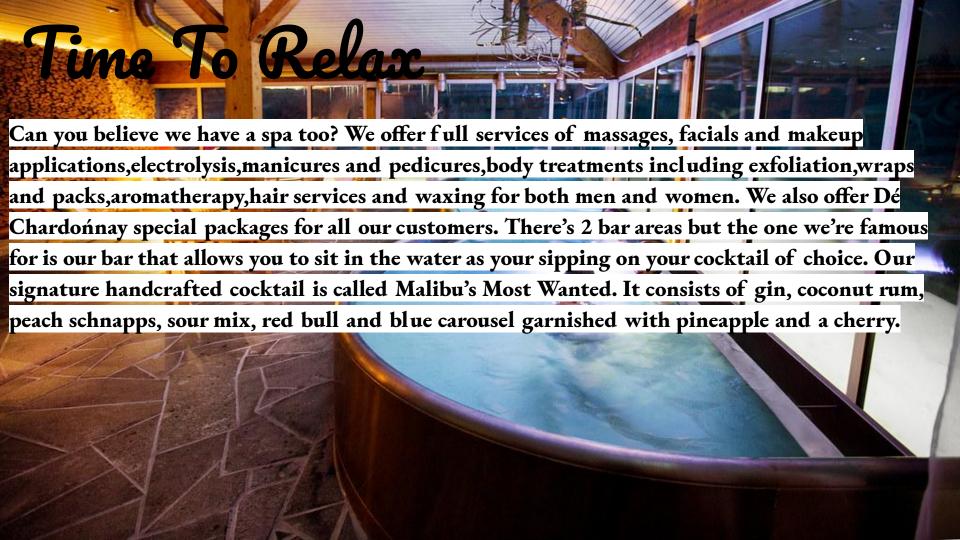

Sometimes adults want a getaway from the kids for a couple of minutes so we offer a cozy pool area. The pool is in the back of Dé Chardońnay with cushion lounge chairs and a side mini bar. The outside pool is open until 3am so adults have time to relax their mind after a long day before having one of the best sleeps. The best time is at night. The outside dim lights from the hotel and palm trees give the area a "It's A Vibe" scenery.

IT'S A KIDDIE PARTY! Not only are the adults going to enjoy their time, the kids are too. It's time for kids to run wild while the adults go explore. We call that area "Wet Kiddie Lagoon". There's a pool with different levels for kids all ages to swim and a slide in the water. We have 3 lifeguards around 24/7 to make sure the kids are safe. My staff come up with many activities so the kids would never get bored. There's a food and a candy bar with cool drinks and a chocolate lava fountain. Wet Kiddie Lagoon give the kids FREEDOM To Run Wild!

### My Inspiration

I chose to do this because I always knew that I wanted to open up my own hotel. This is one of the reasons why I started studying hospitality management because I will learn the necessary skills to achieve my goal. I want people to be able to come into my place of business and feel satisfied and want to keep coming back. I chose these designs because this is what my dream hotel will look like. I want to open a lavish hotel while allowing guests to still get a modern vibe so they won't feel out of place if they're not used to the lavish lifestyle. My audience is couples, singles, families and just anyone who feels like they need to getaway. I don't have one specific audience because my hotel would be open to anyone that wants to come.
