

Angel Lavaire Letter or Speech

I chose to do a letter to communicate my discourse community issue for a variety of reasons, I feel like I am more capable of communicating much more ideas to the public. I don't feel limited nor incapable of adding things that won't sound correct or in a way that would make sense in a speech. It gives me more freedom to express my thoughts and point of view of my discourse community and how I actually feel while not imagining myself saying those words in front of people. Even though I am very much familiar with speeches I wanted to write a letter to improve my writing on paper since letters and speeches are written in a completely different way in my opinion, they require a specific format that makes sense so I really wanted to experiment on that and improve it in a way to capture the reader's attention and to show my experience with this issue that actually bothered me.
