

ALUMNI SPEAKER PANEL

CONSTRUCTION MANAGEMENT & CIVIL ENGINEERING

These alumni represent companies looking to hire immediately. They are looking for students who have completed or will complete their AAS in Civil Engineering Technology this semester.

MARK PIMENTEL

Hello, my name is Mark Pimentel. My background is Peruvian American. I am a student at NYCCT with a Civil Engineer Tech (AAS) Degree and I am enrolled in the Construction Engineer Tech (Btech) program. The company I work for is Stantec where my current role is a Structural Engineer Technician. Most of the projects I have worked on are inspections for bridges, transit, and construction. I have been working in the industry for approximately 6 years.

GIOVANNI VAQUE

I graduated from City Tech in 2018, with my BTech in Construction Technology. As I approached my final semesters at City Tech I took on an internship at HNTB as a CAD Technician and Inspector Trainee. Once I graduated with my BTech I entered a trainee program to become a bridge inspector while also preparing to take my FE Exam the summer of 2021.

KARLA PEÑA

Karla Peña comes from Santo Domingo, Dominican Republic. She moved to the United States when she was 14 years old and continued her high school education at Bronx International High School where she eventually graduated from. Karla graduated from high school with honors after being part of the chosen students to take AP courses based on grades and being an active member of the student government. Karla obtained her Associates and Bachelors degree from New York City College of Technology (NYCCT). During her time attending NYCCT, She worked as a team leader and tutor. She also worked for the NYS Department of Transportation as a construction Inspector. Right before graduating with her bachelors degree, Karla started working as an assistant team leader trainee for AI Engineers.

TUESDAY, MARCH 23, 2021 @ 5:00 PM

This event will be hosted virtually via Zoom. To register go to:

<https://forms.gle/jwzeV15vqjAzxG5d9>. Once registered, you will
