

## **ATTENTION!!**

**CITY TECH Continuing Studies Center & 3Q INNOVATION  
Are Offering **TUITION-FREE** Enrollment In**

### ***NYC BUILDING O&M: ENERGY AUDITS***

**An Online Workforce Upskilling Training Program**

You've heard about the need for NYC workers in building construction and trades, building engineering and operations, architecture, and real estate development to upskill in order to be compliant with and prepared for new clean energy local laws, codes, and job function requirements ASAP. Now - address all three issues - while learning about ...

#### ***NYC Building Energy Audits!***

<https://3qinnovation.org/wf-dev/energy-audits.html>

Don't be left out...instead stand out! Excel at your existing job or set your sights on a new one by jump-starting your NYC building energy efficiency | clean energy learning with an online energy audits course that directly applies to the work you do today...and the promotion you want tomorrow.

**ACT NOW!** For a limited time, City Tech's Continuing Studies Center has arranged for **tuition-free enrollment** in ***NYC Building Energy Audits*** (which is available to enrollees through August 5, 2022). Tuition-free enrollment is limited to active students and recent graduates of City Tech and workers who've completed Continuing Studies Center programs.

**Deadline for **tuition-free enrollment**: June 3, 2022**

All students and workers who complete ***NYC Building Energy Audits*** will receive a formal certificate of completion from the Continuing and Professional Studies division at The City College of New York, CUNY (worth 2 CEU credits).

There are no prerequisites for this course; it is appropriate for students and workers at all experience levels.

**Register by June 3, 2022: *Enrollment Application***
