

## Math 1575 Calculus II Fall 2014

---

**INSTRUCTOR:**

Professor Kate Poirier, kpoirier@citytech.cuny.edu

**LECTURES:**

Tuesdays & Thursdays 8:00-9:40, Namm 402

**OFFICE HOURS:**

Tuesdays & Wednesdays 10:00-11:00 & by appointment, Namm 726

**TEXTBOOK:**

Rogawski, *Calculus: Early Transcendentals, Single Variable*, 2nd edition, W.H. Freeman, New York 2012

**CALCULATOR:**

For quizzes, tests, and exams, each student must have his or her own graphing calculator. The instructor is familiar with the TI-83, 84, and 89 models and cannot provide technical support for other calculators.

### Grading

Your overall percent grade will be converted to a letter grade at the end of the semester using the following scale:

Your overall percent grade will be computed using the following formula:

$$\text{Overall grade} = \begin{cases} 5\% \text{ participation} \\ 10\% \text{ quizzes} \\ 10\% \text{ Webwork} \\ 20\% \text{ highest test} \\ 20\% \text{ second highest test} \\ 35\% \text{ final exam} \end{cases}$$

Drop date: Thursday, November 6

### Homework & Webwork

While homework from the textbook will not be collected, you are responsible for all exercises listed here:

<http://www.citytech.cuny.edu/academics/deptsites/mathematics/docs/courses/MAT1475.pdf>. Quiz questions will be based on them.

You will be responsible for completing online homework using CityTech's Webwork system. Homework sets will usually be due twice per week. Details will be announced in class and on Blackboard. Webwork accounts for 10%

of your overall grade.

## Quizzes

There will be a short quiz at the beginning of class each Wednesday for weeks when there is no term test scheduled. Quiz questions will be based on homework questions from the textbook. Latecomers will not receive extra time. No make-up quizzes will be given. Quizzes account for 10% of your overall grade.

## Tests

There will be three tests given in class. Latecomers will not receive extra time. Your lowest test grade will not count toward your overall grade. No make-up tests will be given. If you miss a test, your grade will be entered as 0 and will count as the lowest grade which is dropped. Any student who misses two tests will be automatically withdrawn from the class.

Tentative test dates:

Test 1: Thursday, September 18

Test 2: Thursday, October 23

Test 3: Tuesday, November 25

Drop date: Thursday, November 6

## Final Exam

The final exam will be given in class during the last class meeting of the semester. It covers all topics studied. It must be taken to pass the course.

Final exam review:

<http://www.citytech.cuny.edu/academics/deptsites/mathematics/docs/review/MAT1575FinalReview.pdf>

Exam date: Thursday, December 18

The final exam accounts for 35% of your overall grade.

## Participation

You are expected to participate in class and in online discussion on the OpenLab. Details will be announced in class. You will be assigned a participation grade out of 5.

## Other policies

Any student who is absent for more than three classes may be automatically withdrawn from the course; a grade of WU will appear on the student's transcript. A WU counts as an F for GPA calculation. Earning a WU may affect a student's financial aid eligibility.

Arriving late or leaving early twice is equivalent to one absence.

Any student who causes disruption may be automatically withdrawn from the course.

You are expected to uphold the principles outlined in CUNY's policy on academic integrity:

[http://www.cuny.edu/about/administration/offices/la/Academic\\_Integrity\\_Policy.pdf](http://www.cuny.edu/about/administration/offices/la/Academic_Integrity_Policy.pdf).
