

# Let's start a Printmaking Club here at City Tech!

We'll bring in speakers, host demos, and generally promote fine art printmaking.  
That would include screenprint, relief printing, intaglio, and lithography.

## Come print some impromptu Valentines with us!

February 13, 2014, N119, 12:45–2:00pm

We will have supplies there for you, bring your time and talent!

Students are able to start clubs as long as they have a minimum of 15 people, an advisor and a constitution. Let's meet up and gauge the interest level of the students so we'll be ready to make the club a reality! Oh, and have some fun!
