

Come print some impromptu Valentines with us!

Atrium, Feb 13, 2:15-4pm

Let's start a Printmaking Club here at City Tech!

Once formed, we'll bring in speakers, host simple demos, and generally promote fine art printmaking, including screenprint, relief printing, intaglio, and lithography.

Students are able to start clubs as long as they have a minimum of 15 people, an advisor and a constitution. Let's meet up and gauge the interest level so we'll be ready to make the club a reality! Oh, and have some fun!
