

Each student will write a one-page Self Reflection Paper elaborating on critiques of the following: **1)** Pecha Kucha Individual Presentation, **2)** Production Practice Pecha Kucha Presentation. Students will use the shared video documentation, available via YouTube, to review presentation videos. Video documentation is shared only with the subjects of the video. Thoroughly critique all three presentation contexts. Critiques for elaboration are listed below.

Individual Presentation

Strong Points:

I was giving a relaxed feel to the presentation and involving the crowd and also giving my own experience on the matter

Weak Points:

I use too many vocal fillers and the relaxation doesn't fly well with all individuals

Content: Was the subject matter of the presentation useful and researched?

Yes

Technical Aspects: Were the slides tidy and easy to read?:

yes

Delivery: Did speech appear smooth and confident? How frequency were vocal fillers?

yes at times but too many fillers came about when a slide wasn't properly synced with my words

Group Presentation

Strong Points:

I did my part and was confident in what we had to present

Weak Points:

Relying too much on the projector sheet instead of just speaking and letting it do its own work

Content: Was the subject matter of the presentation useful and researched?

Yes

Technical Aspects: Were the slides tidy and easy to read?:

Yes

Delivery: Did speech appear smooth and confident? How frequency were vocal fillers?

Yes the vocal fillers were in check
